

## PRESIDENT'S MESSAGE

### **Warm Greetings and Welcome Fellow Alumni, Friends and Guests!**

The Silliman University Alumni and Friends of San Diego (SUAFSD) has, for many years now, provided many of our members a venue to gather and enjoy fellowship with each other, help one another overcome new challenges in this new country we now call our home, and give back to our Alma Mater.

The visionary dedicated and hard-working founding members and the past officers and board of directors have generously shared their resources and dedicated countless volunteer hours to help SUAF@SD persist and thrive for more than 30 years. In the same way, our members have supported this organization and its projects through the years.

It is very encouraging to have new members join our organization in the past two years. Because of this, I am hopeful that SUAFSD will persist for many more years. I invite the younger members to take on leadership so we can continue to thrive as an organization and meet the challenge of the modern times. I also invite Silliman alumni and friends of Silliman who live in San Diego County who are not members yet, to please join us!

With enduring gratitude to all the members, I consider it a great honor to serve you, our organization and our Alma Mater.

Sincerely Yours,

*Louella L. Dolar*

Louella L. Dolar, Class 1980, B.S. Biology
